STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroy, Ky.—In interesting advice from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Theodor's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me." Theodor's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.

COIN COLLECTION

ONE OF THE FINEST IN THE WORLD OWNED BY PRIVATE CITIZEN IN RUSSIA.

Washington, D. C.—"One of the finest coin collections in the world is housed in the home of a private collector in Pskof, a city midway between Dvinsk and Petrograd, upon the Warsaw-Petrograd railway, along which the Germans are endeavoring to advance, and the collection is one of the most valuable things to be found in the country around this city-gateway to the immemorial lands of the Slav," according to a bulletin issued today by the National Geographic Society. "M. Plushkin, the proprietor of Pskof's principal drygoods store, is the owner and gatherer of the collection which has made him known in many foreign lands and which is easily the most interesting thing in the hoary city, once a republic and the rival of Novgorod the Great.

"M. Plushkin lives above his store, surrounded by his wonderful collection of coins and many other curios and antiques which he has gathered during twenty years. The other treasures of this strange collector are of a chaotic variety, and fill several of the rooms of his home. The coin collection is the only part of his museum which contains a wide assortment of valuable articles that M. Plushkin has attempted to order and classify. Numismatologists everywhere know this collection, and consider it one of the best and most complete in the world, better than a similar collection to be found in the Hermitage.

"There are many number of Russian coins in the cabinet. Among these are examples of the earliest coins of Russia, the oldest of which do not date back farther than 980. There are bars and half bars of silver, valued at two roubles and one rouble. There are ancient coins of Pskof, Novgorod the Great, Kiev, Kazan, Tver and other towns, each with its distinctive stamp. One of the old roubles is a coin eight inches square, a formidable piece of wealth. There is another rouble in the collection made of bronze which weighs seven pounds. In this old money, forty roubles, worth today about \$20, would weigh their happy possessor down like a sack of potatoes. Papal, Mohammedan and Jewish coins, the latter bearing the stamp of Solomon's temple, are represented, together with concave coins of old Byzantium, square Swedish coins of brass, remarkable coins used by the republic of Pskof, and some Chinese coins of the year 2,000 B. C. Rare specimens of the coinage of almost every nation of Europe are found in the collection. One of the oldest was started upon its career in the year 2,300 B. C., and has seen more than 4,000 years of existence, or has become quite old as most things go.

"The collection also contains numerous specimens of the paper money of various nations. The examples of Russian paper money are particularly complete; some of the early specimens being unusually interesting. Among the early bills are a few as large as the ordinary diploma or legal document. Upon them are preserved the signatures of all the emperors and empresses who have ruled in Russia. Collectors and curious visitors, from many lands have journeyed to the forsaken, decayed little town of Pskof and braved the inadequacies of its hotels in order to inspect M. Plushkin's renowned cabinet of coins."

MAYSVILLE MAN

One of the Contractors On the New Traction Line Between Portsmouth and Ironton.

By the first of the year modern traction service will be installed on the new road-bed of the Ohio Valley Traction Company, between Portsmouth and Hanging Rock, a distance of twenty-six miles. Mr. Raymond D. York, general manager of the concern, made this announcement Monday.

Contractors Keathley & Hord, who have charge of the grading and masonry work between Scotoville and Hanging Rock, have completed that division of the work, and have started to lay the tracks, two miles of which have been completed.

In constructing the road-bed between Scotoville and Ironton, 60,000 ties and 2,200 tons of open hearth steel rails will be used. There have been seven reinforced concrete bridges installed and many small wooden bridges.

The total cost of constructing the road-bed will be about \$100,000. The other equipment necessary will amount to \$400,000, making a total expenditure of \$500,000.

Mr. Oliver Hord, of this city, is one of the firm that has done such splendid work on this new traction line.

Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
